David Gitter
Gitter, Orlowsky and Associates
5201 Ravenswood Road
Suite 115
Fort Lauderdale, FL 33312

Mr. Gitter:

It is always a pleasure writing thank you letters to our outstanding vendors. I have recently reviewed the installations performed by your company in region 3, and was most impressed. Our support staff managing the office deployment, that have been on-site with you, have spoken very highly of you and your crews. Here are some of the things that were said:

John Bell - "Your job manager, Larry, is one of the most efficient and well organized engineers I have met."

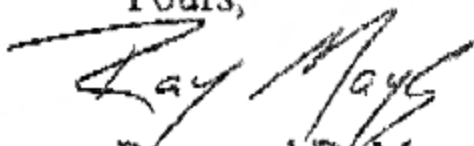

Jerry Conkle - "I was impressed with their ability to conform to our stringent specifications for inside wiring."

Mike Reynolds - "Dave Gitter's technical prowess more then exceeded our expectations. I recommend that we use him for entire LAN/WAN field office installations .. there is almost no need for us to send a technician from California to supervise and complete satellite office configurations."

I understand that your company will be involved in the setting up of our 14 Doctor Care Centers in the region. I am very happy to know that these jobs were awarded to your company, and I am sure that they will be installed in your usual professional fashion.

Please use Foundation Health as a reference at any time.

Yours,

Raymond D. Mays
Senior Network Manager
